Lower Your Energy Costs – **No Investment Required.**

Solar PPA

Free Solar PV Installation for Commercial Premises
Lower Your Energy Costs – **No Investment Required.**

We are offering an exciting opportunity for businesses like yours to significantly reduce electricity costs through a fully funded solar PV system - with no capital outlay or installation or maintenance cost required.

Through a Power Purchase Agreement (PPA), we install, own, and maintain a high-performance solar system on your commercial premises. In return, your business agrees to purchase the electricity it generates at a significantly lower rate than your current utility provider - typically delivering 20-40% savings on your electricity bills.
